PROFESSIONAL SUMMARY

Second-year Biomedical Engineering student at SRM Institute of Science and Technology (CGPA: 8.47/10) with foundational expertise in biomedical instrumentation, medical electronics, and circuit design. Hands-on experience developing microcontroller-based systems for biosignal acquisition. Demonstrated leadership skills in event coordination and community health outreach. Seeking a Biomedical or Clinical Engineering Internship to contribute to device testing, quality assurance, equipment calibration, and preventive maintenance.

EDUCATION

SRM Institute of Science and Technology — *Tamil Nadu, India* Expected May 2029

Bachelor of Technology in Biomedical Engineering

- Academic Standing: Currently in 2nd Year, Semester 2 | **CGPA: 8.47 / 10.0**

Khwopa Secondary School — *Bhaktapur, Nepal*

- Higher Secondary Education (+2 Science)

Amenity English Secondary School — *Sunsari, Nepal*

- Secondary Education (SEE)

TECHNICAL SKILLS

Biomedical Engineering: Biomedical Instrumentation, Medical Electronics, Biosignal Sensing, Circuit Design & Analysis

Programming & Software: MATLAB, Python (Basic), C Programming (Basic), MS Office Suite

CERTIFICATIONS

- **MATLAB Onramp** — MathWorks
- **MATLAB Curve Fitting Onramp** — MathWorks

ACADEMIC PROJECTS

Arduino-Based Heart Rate Monitoring System *In Progress / Planned*

- Designing a biosignal acquisition system utilizing an Arduino microcontroller and optical pulse sensor.
- Implementing signal filtering and sensor-microcontroller interfacing to enable accurate real-time pulse measurement.

Smart Menstrual Health Monitoring Device *Concept Stage*

- Conceptualized a low-cost wearable solution for tracking physiological parameters (e.g., basal body temperature).
- Focused on personal health pattern detection to improve health awareness in resource-limited settings.

LEADERSHIP & COMMUNITY INVOLVEMENT

SRM Institute of Science and Technology — *Chennai, India*

Student Coordinator & Event Anchor

- Coordinated and anchored SRM's inaugural on-campus Dashain celebration, managing logistics and cross-cultural communication for a large student audience.
- Supported execution and outreach for a university-wide menstrual health awareness campaign, facilitating educational sessions.

CORE COMPETENCIES & LANGUAGES

Soft Skills:	Team Leadership & Coordination, Cross-Cultural Communication, Event Management, Technical Problem Solving, Fast Learner
Languages:	English (Professional Working), Nepali (Native), Hindi (Professional Working), Maithili (Native)
